To Whom It May Concern,

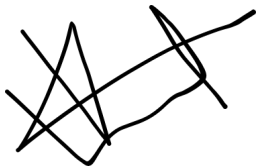

Subject: Experience Letter for Mr. Keshav Mehra

This is to formally certify that **Mr. Keshav Mehra** successfully completed his tenure as a **Web Developer Intern** at **Infits**, a subsidiary of **Variant Labs**, from **05-02-2025** to **08-05-2025**. During his time with us, Keshav displayed outstanding technical acumen, problem-solving abilities, and a strong commitment to delivering high-quality web solutions.

As a Web Developer Intern, Keshav was entrusted with the following responsibilities:

- Designing, developing, and maintaining dynamic web applications that align with business objectives.
- Collaborating effectively with cross-functional teams, including designers, developers, and product managers, to enhance user experience and functionality.
- Writing clean, optimized, and scalable code following industry best practices, ensuring the efficiency and security of web platforms.
- Conducting thorough debugging, testing, and performance optimization to guarantee seamless functionality across various devices and browsers.
- Researching and implementing emerging technologies and trends in web development to improve workflow and project outcomes.
- Assisting in the documentation and version control processes to streamline development efforts.
- Throughout his internship, Keshav demonstrated remarkable dedication to learning and professional growth. His ability to quickly grasp complex technical concepts, adapt to challenges, and contribute innovative ideas made him a valuable asset to our team. His strong analytical skills, team-oriented mindset, and attention to detail were commendable.
- We sincerely appreciate his contributions and professional conduct during his time with **Infits** and **Variant Labs**. We are confident that his passion for web development, combined with his technical expertise and work ethic, will enable him to excel in his future endeavours.

We wholeheartedly recommend **Mr. Keshav Mehra** for any opportunities that align with his skills and career aspirations.

Sincerely,
Vivek Vadrevu
Founder & CEO
Infits | Variant Labs
